WHEREAS, said Declarant is about to convey parcels of said real property shown on said Map and desires to subject the same to certain restrictions, conditions, covenants and stipulations hereinafter set forth in furtherance of a general plan for the improvement of said tract;

NAM, MURKIN, the undersigned owner of the hereinabove described property hereby declares that said property is held and shall be conveyed subject to restrictions, conditions, covenants, charges and stipulations set forth in this Declaration, to-wit:

1. LAND USE AND BUILDING TYPE: No lot shall be used except for residential purposes. No building shall be erected, altered, placed, or permitted to remain on any lot other than one detached single-family dwelling not to exceed one story in height and a private garage with the approval of the Architectural Committee. No business, trade, or manufacturing of any nature or description shall be carried on or transacted on any portion of said property and no part of said premises be used as a hospital or as a place of entertainment, or for the care of entertainment or persons suffering from any physical disability whatsoever.

2. ARCHITECTURAL CONTROL: No building shall be erected, altered, or placed on any lot until the construction plans and specifications and a plan showing the location of the structure have been approved by the Architectural Committee, as to quality of workmanship and materials, and shall conform with existing structures, and as to height with the existing ground level and grade elevation.

3. YARD: The clear area of the dwelling, exclusive of porches, terraces, carport and parking, shall be not less than 1800 square feet. No unrelated steel building or other structure of any nature whatsoever, permanent or temporary, shall be moved or placed upon, or stored or otherwise maintained on any lot, provided, however, that a temporary office, trailer office, tool shed, lumber shed or in sales office may be maintained upon any lot or lots by any building contractor for the purpose of erecting and selling dwellings on any lot or lots, but such temporary structures shall be removed at completion of construction or selling of dwelling, whichever is later.

4. BUILDING LOCATIONS: No building shall be located on any lot closer to the front line than thirty (30) feet, no building shall be located nearer the rear (25) feet to any interior lot line, nor closer than ten (10) feet to a side lot line adjacent to a street, except that side yards for detached garages and other permitted accessory buildings located in the rear one-half of the lot need only conform to the requirements of the City of Phoenix.

A supported storage rack attached to the wall of the dwelling may be placed not lower than three (3) feet to an interior lot line and not closer than two (2) feet to a side lot line adjacent to a street. For the purpose of this ordinance, eaves, steps and open porches shall not be considered as a part of a building, provided, however, that this shall not be construed to permit an addition to a building on a lot to encroach upon another lot. In the event an owner requires a portion of an adjacent lot or lots, the foregoing restrictions shall be made from such owner's side property lines rather than from the side lot lines indicated on said recorded map or plat. None of said lots shall be subdivided into smaller lots nor conveyed or encumbered in less than the full original dimension of such lots as shown on the plat of SMITH LEASING TRACT II, except for public utilities, provided that this restriction shall not prevent the conveyance or encumbrance of adjoining or contiguous lots or parts of lots in such manner as to create parcels of land in a common ownership having the same or a greater street frontage than shown on the plat of APOLLO ESTATES TRACT II, for any one of the lots, portions of which are so conveyed or encumbered or having a greater area than any of the lots, portions of which are so conveyed or encumbered. Thereafter, such parts of adjoining or contiguous lots in such common ownership, shall, for the purpose of these restrictions, be considered as one lot. Nothing herein contained shall prevent the dedication of conveyance of portions of lots for public utilities, in which event the remaining portion of an lot shall, for the purpose of this provision, be treated as a whole lot.

6. FENCES: No fence or wall higher than six (6) feet shall be constructed across the rear property line of any lot; nor shall any fence or wall be constructed upon any lot unless its design and style are first approved by said committee. Fences or walls constructed within the area of the original front or side street setback lines (as defined in paragraph 5a) hereof shall not exceed two (2) feet six (6) inches in height; fences or walls constructed on an side lot line shall not exceed six (6) feet in height.

9. TEMPORARY STRUCTURES: No structure of a temporary character, trailer, basement, tent, shack, garage, box or other outbuilding shall be used on any lot at any time as a residence either temporarily or permanently.
