b. Construction plans and specifications shall specify that construction materials for erection of exterior walls of any structure shall be of concrete block, cinder block, stump block, brick, frame-stucco or block-stucco.

c. The Architectural Control Committee may authorize reasonable deviations from the requirements of b above if such deviations do not adversely affect the appearance, quality, or harmony of Country Club North Unit Three, nor adversely affect the market value of existing homes in said Unit.

d. The existence of any present structure within said Unit which does not meet the minimum standards of these amended restrictions shall not be construed as a basis for any waiver of said amended restrictions.

3. Size. The floor area of the dwelling, exclusive of porches, garages, carport and patios, shall be not less than 1,800 square feet unless otherwise approved by the Committee. No pre-fabricated building or other structure of any nature whatsoever, permanent or temporary, shall be moved or placed upon, or assembled

5. Fences. No fence or wall higher or lower than six feet (8') shall be constructed across the rear property line of any lot nor shall any fence or wall be constructed upon any lot unless constructed of concrete block, cinder block, slump block, brick or block-stucco, and its design and style are first approved by said Committee.
